VOLUME CONTENTS

Volume 52, Issue 1, January 2007

Original Articles

1 *Eric D. Romaniszyn, John J. Hutchens and J. Bruce Wallace:* Aquatic and terrestrial invertebrate drift in southern Appalachian Mountain streams: implications for trout food resources

12 *Alexandrine Pannard, Myriam Bormans and Yvan Lagadeuc:* Short-term variability in physical forcing in temperate reservoirs: effects on phytoplankton dynamics and sedimentary fluxes

28 *Kelly Gutseit, Olof Berglund and Wilhelm Granéli:* Essential fatty acids and phosphorus in seston from lakes with contrasting terrestrial dissolved organic carbon content

39 *Stephanie A. Miller and Frederick D. Provenza:* Mechanisms of resistance of freshwater macrophytes to herbivory by invasive juvenile common carp

50 *Manfred Pöckl:* Strategies of a successful new invader in European fresh waters: fecundity and reproductive potential of the Ponto-Caspian amphipod *Dikerogammarus villosus* in the Austrian Danube, compared with the indigenous *Gammarus fossarum* and *G. roeseli*

64 *M. M. Gangloff and J. W. Feminella:* Stream channel geomorphology influences mussel abundance in southern Appalachian streams, U.S.A.

75 *Michael J. Smith, E. Sabine G. Schreiber, Michael P. Scroggie, Michele Kohout, Keely Ough, Joanne Potts, Ruth Lennie, Derek Turnbull, Changhao Jin and Tim Clancy:* Associations between anuran tadpoles and salinity in a landscape mosaic of wetlands impacted by secondary salinisation

85 *Nicolas Martel, Marco A. Rodríguez and Pierre Bérubé:* Multi-scale analysis of responses of stream macrobenthos to forestry activities and environmental context

98 *Samantha C. Bates Prins and Eric P. Smith:* Using biological metrics to score and evaluate sites: a nearest-neighbour reference condition approach

112 *Jessica L. Clasen and James J. Elser:* The effect of host *Chlorella NC64A* carbon : phosphorus ratio on the production of *Paramecium bursaria Chlorella Virus-1*

123 *Julie K. H. Zimmerman and Bruce Vondracek:* Brown trout and food web interactions in a Minnesota stream

137 *Karsten Rinke, Ina Hübner, Thomas Petzoldt, Susanne Rolinski, Marie König-Rinke, Johannes Post, Andreas Lorke and Jürgen Benndorf:* How internal waves influence the vertical distribution of zooplankton

Applied Issues

145 *Sylvain Dolédec, Nicolas Lamouroux, Ulrike Fuchs and Sylvie Mérigoux:* Modelling the hydraulic preferences of benthic macroinvertebrates in small European streams

165 *Janne Raunio, Riku Paavola and Timo Muotka:* Effects of emergence phenology, taxa tolerances and taxonomic resolution on the use of the Chironomid Pupal Exuvial Technique in river biomonitoring

177 *Thomas S. Woodcock and Alexander D. Huryn:* The response of macroinvertebrate production to a pollution gradient in a headwater stream

197 Book Reviews

Volume 52, Issue 2, February 2007

Special Review

199 *Joséphine Leflaive and Loïc Ten-Hage:* Algal and cyanobacterial secondary metabolites in freshwaters: a comparison of allelopathic compounds and toxins

Original Articles

215 *Michael Dobson, Adiel M. Magana, Jill Lancaster and Jude M. Mathooko:* Aseasonality in the abundance and life history of an ecologically dominant freshwater crab in the Rift Valley, Kenya

226 *Elizabeth G. Reese and Darold P. Batzer:* Do invertebrate communities in floodplains change predictably along a river's length?

240 *Michael A. Chadwick and Alexander D. Huryn:* Role of habitat in determining macroinvertebrate production in an intermittent-stream system

252 *G. Pinay, B. Gumiero, E. Tabacchi, O. Gimenez, A. M. Tabacchi-Planty, M. M. Hefting, T. P. Burt, V. A. Black, C. Nilsson, V. Iordache, F. Bureau, L. Vought, G. E. Petts and H. Décamps:* Patterns of denitrification rates in European alluvial soils under various hydrological regimes

267 *Erin E. Peterson, David M. Theobald and Jay M. Ver Hoef:* Geostatistical modelling on stream networks: developing valid covariance matrices based on hydrologic distance and stream flow

280 *N. John Anderson and Colin A. Stedmon:* The effect of evapoconcentration on dissolved organic carbon concentration and quality in lakes of SW Greenland

290 *Michael T. Bogan and David A. Lytle:* Seasonal flow variation allows 'time-sharing' by disparate aquatic insect communities in montane desert streams

305 *Steven A. Loiselle, Andres Cózar, Arduino Dattilo, Luca Bracchini and Jose A. Gálvez:* Light limitations to algal growth in tropical ecosystems

313 *Carla E. Cáceres, Anna N. Christoff and Wiebke J. Boeing:* Variation in ephippial buoyancy in *Daphnia pulicaria*

319 *Paul C. Frost, Christy T. Cherrier, James H. Larson, Scott Bridgham and Gary A. Lamberti:* Effects of dissolved organic matter and ultraviolet radiation on the accrual, stoichiometry and algal taxonomy of stream periphyton

331 *Jörg Lewandowski, Christine Laskov and Michael Hupfer:* The relationship between *Chironomus plumosus* burrows and the spatial distribution of pore-water phosphate, iron and ammonium in lake sediments

344 *Kelly Gutseit, Olof Berglund and Wilhelm Granéli:* Food quality for *Daphnia* in humic and clear water lakes

Applied Issues

357 *Zoë S. Dewson, Alexander B. W. James and Russell G. Death:* Invertebrate responses to short-term water abstraction in small New Zealand streams

370 *Helen F. Dallas:* The influence of biotope availability on macroinvertebrate assemblages in South African rivers: implications for aquatic bioassessment

Opinions

381 *G. A. van Duinen, W. C. E. P. Verberk and H. Esselink:* Persistence and recolonisation determine success of bog restoration for aquatic invertebrates: a comment on Mazerolle *et al.* (2006)

383 *Marc J. Mazerolle and Monique Poulin:* Persistence and colonisation as measures of success in bog restoration for aquatic invertebrates: a question of detection

386 *Ronald altig, Matt R. Whiles and Cindy L. Taylor:* What do tadpoles really eat? Assessing the trophic status of an understudied and imperiled group of consumers in freshwater habitats

396 Book Reviews

Volume 52, Issue 3, March 2007

Original Articles

399 *Daniel L. Roelke, Tamar Zohary, K. David Hambright and José V. Montoya:* Alternative states in the phytoplankton of Lake Kinneret, Israel (Sea of Galilee)

412 *Dale G. McNeil and Gerard P. Closs:* Behavioural responses of a south-east Australian floodplain fish community to gradual hypoxia

421 *Bruno B. Castro, Sérgio M. Marques and F. Gonçalves:* Habitat selection and diel distribution of the crustacean zooplankton from a shallow Mediterranean lake during the turbid and clear water phases

434 *Marlies E. W. van der Welle, Alfons J. P. Smolders, Huub J. M. Op den Camp, Jan G. M. Roelofs and Leon P. M. Lamers:* Biogeochemical interactions between iron and sulphate in freshwater wetlands and their implications for interspecific competition between aquatic macrophytes

448 *Sebastien Brosse, Gary D. Grossman and Sovan Lek:* Fish assemblage patterns in the littoral zone of a European reservoir

459 *David J. Colangelo:* Response of river metabolism to restoration of flow in the Kissimmee River, Florida, U.S.A.

471 *Simon D. Rundle, David T. Bilton, John C. Abbott and Andrew Foggo:* Range size in North American *Enallagma* damselflies correlates with wing size

478 *D. T. Chaloner, G. A. Lamberti, A. D. Cak, N. L. Blair and R. T. Edwards:* Inter-annual variation in responses of water chemistry and epilithon to Pacific salmon spawners in an Alaskan stream

491 *Oliver S. Beveridge and Jill Lancaster:* Sub-lethal effects of disturbance on a predatory net-spinning caddisfly

500 *Sadia Kibriya and J. Iwan Jones:* Nutrient availability and the carnivorous habit in *Utricularia vulgaris*

510 *José L. Campos, David Posada, Pablo Caballero and Paloma Morán:* Spatio-temporal genetic variability in sea trout (*Salmo trutta*) populations from north-western Spain

525 *J. Todd Streelman, R. C. Albertson and T. D. Kocher:* Variation in body size and trophic morphology within and among genetically differentiated populations of the cichlid fish, *Metriaclima zebra*, from Lake Malawi

539 *Leena Nurminen, Jukka Horppila and Zeynep Pekcan-Hekim:* Effect of light and predator abundance on the habitat choice of plant-attached zooplankton

549 *Jan Åberg, Mats Jansson, Jan Karlsson, Klockar-Jenny Nääs and Anders Jonsson:* Pelagic and benthic net production of dissolved inorganic carbon in an unproductive subarctic lake

561 *Steven A. Pothoven, Henry A. Vanderploeg, Joann F. Cavaletto, Damon M. Krueger, Doran M. Mason and Stephen B. Brandt:* Alewife planktivory controls the abundance of two invasive predatory cladocerans in Lake Michigan

Applied Issues

574 *Christopher J. Walsh, Kylie A. Waller, Janelle Gehling and Ralph Mac Nally:* Riverine invertebrate assemblages are degraded more by catchment urbanisation than by riparian deforestation

Volume 52, Issue 4, April 2007

589 *Roland Jansson, Christer Nilsson and Björn Malmquist:* Restoring freshwater ecosystems in riverine landscapes: the roles of connectivity and recovery processes

597 *P. S. Lake, N. Bond and P. Reich:* Linking ecological theory with stream restoration

616 *Jane M. Hughes:* Constraints on recovery: using molecular methods to study connectivity of aquatic biota in rivers and streams

632 *Andrew J. Boulton:* Hyporheic rehabilitation in rivers: restoring vertical connectivity

651 *J. C. Stromberg, V. B. Beauchamp, M. D. Dixon, S. J. Lite and C. Paradzick:* Importance of low-flow and high-flow characteristics to restoration of riparian vegetation along rivers in arid south-western United States

680 *Thomas E. Johnson, James N. Mcnair and David D. Hart:* Stream ecosystem responses to spatially variable land cover: an empirically based model for developing riparian restoration strategies

696 *Frank J. Rahel:* Biogeographic barriers, connectivity and homogenization of freshwater faunas: it's a small world after all

711 *B. W. van Wilgen, J. L. Nel and M. Rouget:* Invasive alien plants and South African rivers: a proposed approach to theprioritization of control operations

724 *Timo Muotka and Jukka Syrjänen:* Changes in habitat structure, benthic invertebrate diversity, trout populations and ecosystem processes in restored forest streams: a boreal perspective

738 *Emily S. Bernhardt and Margaret A. Palmer:* Restoring streams in an urbanizing world

752 *Sharon Woolsey, Florence Capelli, Tom Gonser, Eduard Hoehn, Markus Hostmann, Berit Junker, Achim Paetzold, Christian Roulier, Steffen Schweizer, Scott D. Tiegs, Klement Tockner, Christine Weber and Armin Peter:* A strategy to assess river restoration success

Volume 52, Issue 5, May 2007

Original Articles

771 *Gerard Dineen, Simon S. C. Harrison and Paul S. Giller:* Growth, production and bioenergetics of brown trout in upland streams with contrasting riparian vegetation

784 *Daryl L. Nielsen, Margaret A. Brock and Katharine Crosslé:* The impact of salinity pulses on the emergence of plant and zooplankton from wetland seed and egg banks

796 *Allain J. Barnett, Kerri Finlay and Beatrix E. Beisner:* Functional diversity of crustacean zooplankton communities: towards a trait-based classification

814 *Paul C. Hanson, Stephen R. Carpenter, Jeffrey A. Cardille, Michael T. Coe and Luke A. Winslow:* Small lakes dominate a random sample of regional lake characteristics

823 *Rahmat Naddafi, Kurt Pettersson and Peter Eklöv:* The effect of seasonal variation in selective feeding by zebra mussels (*Dreissena polymorpha*) on phytoplankton community composition

843 *Aurelie Blanck, Pablo A. Tedesco and Nicolas Lamouroux:* Relationships between life-history strategies of European freshwater fish species and their habitat preferences

860 *Weston H. Nowlin, John-Mark Davies and Asit Mazumder:* Planktonic phosphorus pool sizes and cycling efficiency in coastaland interior British Columbia lakes

878 *Lee E. Brown, Alexander M. Milner and David M. Hannah:* Groundwater influence on alpine stream ecosystems

891 *Daniel Von Schiller, Eugènia Martí, Joan Lluís Riera and Francesc Sabater:* Effects of nutrients and light on periphyton biomass and nitrogen uptake in Mediterranean streams with contrasting land uses

Applied Issues Special Section

Putting the landscape back into freshwater management

907 *Richard K. Johnson:* Special Section: Environmental Assessment meets Landscape Ecology meets Land use Planning

908 *Robert C. Bailey, Trefor B. Reynoldson, Adam G. Yates, John Bailey and Simon Linke:* Integrating stream bioassessment and landscape ecology as a tool for land use planning

918 *Simon Linke, Robert L. Pressey, Robert C. Bailey and Richard H. Norris:* Management options for river conservation planning: condition and conservation re-visited

939 *Richard K. Johnson, Mike T. Furse, Daniel Hering and Leonard Sandin:* Ecological relationships between stream communities and spatial scale: implications for designing catchment-level monitoring programmes

959 *Richard H. Norris, Simon Linke, Ian Prosser, William J. Young, Peter Liston, Nicholas Bauer, Nerida Sloane, Fiona Dyer and Martin Thoms:* Very-broad-scale assessment of human impacts on river condition

Volume 52, Issue 6, June 2007

Original Articles

977 *Frank C. J. M. Roozen, Miquel Lürling, Hanneke Vlek, Edwin A. J. van der Pouw Kraan, Bas W. Ibelings and Marten Scheffer:* Resuspension of algal cells by benthivorous fish boosts phytoplankton biomass and alters community structure in shallow lakes

988 *I. D. Jones and J. A. Elliott:* Modelling the effects of changing retention time on abundance and composition of phytoplankton species in a small lake

998 *Iris Dröscher and Johann Waringer:* Abundance and microhabitats of freshwater sponges (Spongillidae) in a Danubean floodplain in Austria

1009 *Mariana Meerhoff, Carlos Iglesias, Franco Teixeira de Mello, Juan M. Clemente, Elisabeth Jensen, Torben L. Lauridsen and Erik Jeppesen:* Effects of habitat complexity on community structure and predator avoidance behaviour of littoral zooplankton in temperate versus subtropical shallow lakes

1022 *Mario Brauns, Xavier-François Garcia, Martin T. Pusch and Norbert Walz:* Eulittoral macroinvertebrate communities of lowland lakes: discrimination among trophic states

1033 *T. Schröder, S. Howard, M. L. Arroyo and E. J. Walsh:* Sexual reproduction and diapause of *Hexarthra* sp. (Rotifera) in short-lived ponds in the Chihuahuan Desert

1043 *Birgit Luef, Fanni Aspetsberger, Thomas Hein, Florian Huber and Peter Peduzzi:* Impact of hydrology on free-living and particle-associated microorganisms in a river floodplain system (Danube, Austria)

1058 *Jochen Vandekerkhove, Renate Matzke-Karasz, Francesc Mezquita and Giampaolo Rossetti:* Experimental assessment of the fecundity of *Eucypris virens* (Ostracoda, Crustacea) under natural sex ratios

1065 *Caroly A. Shumway, Hans A. Hofmann and Adam P. Dobberfuhl:* Quantifying habitat complexity in aquatic ecosystems

Applied Issues

1077 *Jonathan P. Benstead, Adrian C. Green, Linda A. Deegan, Bruce J. Peterson, Karie Slavik, William B. Bowden and Anne E. Hershey:* Recovery of three arctic stream reaches from experimental nutrient enrichment

1090 *Delin Qi, Songchang Guo, Xinquan Zhao, Jie Yang and Wenjia Tang:* Genetic diversity and historical population structure of *Schizopygopsis pylzovi* (Teleostei: Cyprinidae) in the Qinghai–Tibetan Plateau

1105 *D. M. Walters, K. M. Fritz and D. L. Phillips:* Reach-scale geomorphology affects organic matter and consumer $\delta^{13}C$ in a forested Piedmont stream

1120 *Denise de C. Bicudo, Bárbara M. Fonseca, Luis M. Bini, Luciane O. Crossetti, Carlos E. de M. Bicudo and Tatiane Araújo-Jesus:* Undesirable side-effects of water hyacinth control in a shallow tropical reservoir

1134 *Catherine L. Hein, M. Jake Vander Zanden and John J. Magnuson:* Intensive trapping and increased fish predation cause massive population decline of an invasive crayfish

1147 *Jon C. Svendsen, Allan O. Eskesen, Kim Aarestrup, Anders Koed and Anders D. Jordan:* Evidence for non-random spatial positioning of migrating smolts (Salmonidae) in a small lowland stream

1159 *Lester L. Yuan:* Using biological assemblage composition to infer the values of covarying environmental factors

1176 *I. A. Sanders, C. M. Heppell, J. A. Cotton, G. Wharton, A. G. Hildrew, E. J. Flowers and M. Trimmer:* Emission of methane from chalk streams has potential implications for agricultural practices

Volume 52, Issue 7, July 2007

Original Articles

1187 *R. Lieske and P. Zwick:* Food preference, growth and maturation of *Nemurella pictetii* (Plecoptera: Nemouridae)

1198 *Justyna Wolinska, Astrid Löffler and Piet Spaak:* Taxon-specific reaction norms to predator cues in a hybrid *Daphnia* complex

1210 *Clay P. Arango, Jennifer L. Tank, Jamie L. Schaller, Todd V. Royer, Melody J. Bernot and Mark B. David:* Benthic organic carbon influences denitrification in streams with high nitrate concentration

1223 *Renato Casagrandi, Lorenzo Mari and Marino Gatto:* Modelling the local dynamics of the zebra mussel (*Dreissena polymorpha*)

1239 *Garrett E. Barr and Kimberly J. Babbitt:* Trout affect the density, activity and feeding of a larval plethodontid salamander

1249 *Francesca Gherardi and Patrizia Acquistapace:* Invasive crayfish in Europe: the impact of *Procambarus clarkii* on the littoral community of a Mediterranean lake

1260 *Virginia E. Villafañe, Kunshan Gao, Ping Li, Gang Li and E. Walter Helbling:* Vertical mixing within the epilimnion modulates UVR-induced photoinhibition in tropical freshwater phytoplankton from southern China

1271 *Pär Byström, Jan Karlsson, Per Nilsson, Tobias van Kooten, Jenny Ask and Frans Olofsson:* Substitution of top predators: effects of pike invasion in a subarctic lake

1281 *Danilo Giroldo, Pedro I. C. Ortolano and Armando A. H. Vieira:* Bacteria–algae association in batch cultures of phytoplankton from a tropical reservoir: the significance of algal carbohydrates

1290 *Lars-Anders Hansson, Susanne Gustafsson, Karin Rengefors and Lina Bomark:* Cyanobacterial chemical warfare affects zooplankton community composition

1302 *Matthew I. Pyne, Russell B. Rader and William F. Christensen:* Predicting local biological characteristics in streams: a comparison of landscape classifications

1322 *V. Baldy, V. Gobert, F. Guerold, E. Chauvet, D. Lambrigot and J.-Y. Charcosset:* Leaf litter breakdown budgets in streams of various trophic status: effects of dissolved inorganic nutrients on microorganisms and invertebrates

1336 *Rafael Marcé, Claudia Feijoó, Enrique Navarro, Jaime Ordoñez, Joan Comà and Joan Armengol:* Interaction between wind-induced seiches and convective cooling governs algal distribution in a canyon-shaped reservoir

1353 *David A. Boughton, Michael Gibson, Robert Yedor and Elise Kelley:* Stream temperature and the potential growth and survival of juvenile *Oncorhynchus mykiss* in a southern California creek

1365 *Teresa Buchaca and Jordi Catalan:* Factors influencing the variability of pigments in the surface sediments of mountain lakes

Applied Issues

1380 *Christian K. Feld and Daniel Hering:* Community structure or function: effects of environmental stress on benthic macroinvertebrates at different spatial scales

1400 *Tibor Erős:* Partitioning the diversity of riverine fish: the roles of habitat types and non-native species

Corrigendum

1416 *R. Naddafi, K. Pettersson and P. Eklöv:* The effect of seasonal variation in selective feeding by zebra mussels (*Dreissena polymorpha*) on phytoplankton community composition

Volume 52, Issue 8, August 2007

Original Articles

1417 *John J. Gilbert:* Induction of mictic females in the rotifer *Brachionus*: oocytes of amictic females respond individually to population-density signal only during oogenesis shortly before oviposition

1427 *David J. Berg, Alan D. Christian and Sheldon I. Guttman:* Population genetic structure of three freshwater mussel (Unionidae) species within a small stream system: significant variation at local spatial scales

1440 *J. F. Jr Gonçalves, M. A. S. Graça and M. Callisto:* Litter decomposition in a Cerrado savannah stream is retarded by leaf toughness, low dissolved nutrients and a low density of shredders

1452 *Thibault Datry, Scott T. Larned and Mike R. Scarsbrook:* Responses of hyporheic invertebrate assemblages to large-scale variation in flow permanence and surface–subsurface exchange

1463 *Xia Zhang, Ping Xie, Feizhou Chen, Sixin Li and Jianhui Qin:* Driving forces shaping phytoplankton assemblages in two subtropical plateau lakes with contrasting trophic status

1476 *Bettina Sonntag, Monika Summerer and Ruben Sommaruga:* Sources of mycosporine-like amino acids in planktonic *Chlorella*-bearing ciliates (Ciliophora)

1486 *Shin-Ichiro Abe, Kazuo Uchida, Tamotsu Nagumo and Jiro Tanaka:* Alterations in the biomass-specific productivity of periphyton assemblages mediated by fish grazing

1494 *M. Filomena Magalhães, Pedro Beja, Isaac J. Schlosser and Maria J. Collares-Pereira:* Effects of multi-year droughts on fish assemblages of seasonally drying Mediterranean streams

1511 *Michio Fukushima, Satoshi Kameyama, Masami Kaneko, Katsuya Nakao and E. Ashley Steel:* Modelling the effects of dams on freshwater fish distributions in Hokkaido, Japan

1525 *Christian Albrecht, Roland Schultheiß, Theodoros Kevrekidis, Bruno Streit and Thomas Wilke:* Invaders or endemics? Molecular phylogenetics, biogeography and systematics of *Dreissena* in the Balkans

1537 *Olaf Pinkhaus, Susanne Schwerin, Ralph Pirow, Bettina Zeis, Ina Buchen, Ulrike Gigengack, Marita Koch, Wolfgang Horn and Rüdiger J. Paul:* Temporal environmental change, clonal physiology and the genetic structure of a *Daphnia* assemblage (*D. galeata–hyalina* hybrid species complex)

1555 *Rick D. Stuart-Smith, Jemina F. Stuart-Smith, Robert W.G. White and Leon A. Barmuta:* The impact of an introduced predator on a threatened galaxiid fish is reduced by the availability of complex habitats

1564 *Loreto De Brabandere, Thomas K. Frazer and Joseph P. Montoya:* Stable nitrogen isotope ratios of macrophytes and associated periphyton along a nitrate gradient in two subtropical, spring-fed streams

1576 *A. D. Nunn, J. P. Harvey, J. R. Britton, P. A. Frear and I. G. Cowx:* Fish, climate and the Gulf Stream: the influence of abiotic factors on the recruitment success of cyprinid fishes in lowland rivers

1587 *Greg Cronin, James H. Mccutchan Jr, John Pitlick and William M. Lewis Jr:* Use of Shields stress to reconstruct and forecast changes in river metabolism

1602 *E. Martin Osterling, Eva Bergman, Larry A. Greenberg, Brad S. Baldwin and Edward L. Mills:* Turbidity-mediated interactions between invasive filter-feeding mussels and native bioturbating mayflies

1611 *David L. Strayer and Heather M. Malcom:* Shell decay rates of native and alien freshwater bivalves and implications for habitat engineering

Applied Issues

1618 *Jenny Bergfur, Richard K. Johnson, Leonard Sandin, Willem Goedkoop and Kristiina Nygren:* Effects of nutrient enrichment on boreal streams: invertebrates, fungi and leaf-litter breakdown

1634 *Richard Marchant:* The use of taxonomic distinctness to assess environmental disturbance of insect communities from running water

1646 Book Review

Volume 52, Issue 9, September 2007

Original Articles

1647 *Glen George, Margaret Hurley and Diane Hewitt:* The impact of climate change on the physical characteristics of the larger lakes in the English Lake District

1667 *Mathieu Denoël, Howard H. Whiteman and Scott A. Wissinger:* Foraging tactics in alternative heterochronic salamander morphs: trophic quality of ponds matters more than water permanency

1677 *A. Chaput-Bardy, O. Pays, T. Lodé and J. Secondi:* Morphological clines in dendritic landscapes

1689 *Holly L. Menninger and Margaret A. Palmer:* Herbs and grasses as an allochthonous resource in open-canopy headwater streams

1700 *Gábor Horváth, Péter Malik, György Kriska and Hansruedi Wildermuth:* Ecological traps for dragonflies in a cemetery: the attraction of *Sympetrum* species (Odonata: Libellulidae) by horizontally polarizing black gravestones

1710 *A. G. Finstad, S. Einum, T. Forseth and O. Ugedal:* Shelter availability affects behaviour, size-dependent and mean growth of juvenile Atlantic salmon

1719 *Andrew J. H. Davey and David J. Kelly:* Fish community responses to drying disturbances in an intermittent stream: a landscape perspective

1734 *Merlijn Jocqué, Bruce J. Riddoch and Luc Brendonck:* Successional phases and species replacements in freshwater rock pools: towards a biological definition of ephemeral systems

1745 *Oksana P. Andrushchyshyn, Kevin P. Wilson and D. Dudley Williams:* Ciliate communities in shallow groundwater: seasonal and spatial characteristics

1762 *Marcelo Ardón and Catherine M. Pringle:* The quality of organic matter mediates the response of heterotrophic biofilms to phosphorus enrichment of the water column and substratum

1773 *John T. Lehman, Rachel A. Platte and Julie A. Ferris:* Role of hydrology in development of a vernal clear water phase in an urban impoundment

1782 *Leland J. Jackson, Torben L. Lauridsen, M. Søndergaard and Erik Jeppesen:* A comparison of shallow Danish and Canadian lakes and implications of climate change

1793 *Franz Hölker, Hendrik Dörner, Torsten Schulze, Susanne S. Haertel-Borer, Scott D. Peacor and Thomas Mehner:* Species-specific responses of planktivorous fish to the introduction of a new piscivore: implications for prey fitness

1807 *Peter Stief:* Enhanced exoenzyme activities in sediments in the presence of deposit-feeding *Chironomus riparius* larvae

Applied Issues

1820 *Julia P. G. Jones, Fortunat B. Andriahajaina, Neal J. Hockley, Keith A. Crandall and Olga R. Ravoahangimalala:* The ecology and conservation status of Madagascar's endemic freshwater crayfish (Parastacidae; *Astacoides*)

1834 *Christian Skov and P. Anders Nilsson:* Evaluating stocking of YOY pike *Esox lucius* as a tool in the restoration of shallow lakes

1846 *Jani Heino, Heikki Mykrä, Heikki Hämäläinen, Jukka Aroviita and Timo Muotka:* Responses of taxonomic distinctness and species diversity indices to anthropogenic impacts and natural environmental gradients in stream macroinvertebrates

Volume 52, Issue 10, October 2007

Editorial

1863 *Alan G. Hildrew and Colin R. Townsend: Freshwater Biology* – looking back, looking forward

Original Articles

1868 *Paul Joyce, Luke L. Warren and Roger S. Wotton:* Faecal pellets in streams: their binding, breakdown and utilization

1881 *Debra S. Finn, Michael S. Blouin and David A. Lytle:* Population genetic structure reveals terrestrial affinities for a headwater stream insect

1898 *Diego Rubolini, Paolo Galeotti, Fabio Pupin, Roberto Sacchi, Pietro A. Nardi and Mauro Fasola:* Repeated matings and sperm depletion in the freshwater crayfish *Austropotamobius italicus*

1907 *Helen R. Wilcock, Michael W. Bruford, Richard A. Nichols and Alan G. Hildrew:* Landscape, habitat characteristics and the genetic population structure of two caddisflies

1930 *Janet Higuti, Luiz Felipe Machado Velho, Fábio Amodêo Lansac-Tôha and Koen Martens:* Pleuston communities are buffered from regional flood pulses: the example of ostracods in the Paraná River floodplain, Brazil

1944 *Mark D. Scheuerell, Jonathan W. Moore, Daniel E. Schindler and Chris J. Harvey:* Varying effects of anadromous sockeye salmon on the trophic ecology of two species of resident salmonids in southwest Alaska

1957 *David Griffiths:* Effects of climatic change and eutrophication on the glacial relict, *Mysis relicta*, in Lough Neagh

1968 *Michelle L. Verant, Melissa L. Konsti, Kyle D. Zimmer and Carrie A. Deans:* Factors influencing nitrogen and phosphorus excretion rates of fish in a shallow lake

1982 *Julianne M. Zickovich and Andrew J. Bohonak:* Dispersal ability and genetic structure in aquatic invertebrates: a comparative study in southern California streams and reservoirs

1997 *Antonia Liess and Ann-Louise Haglund:* Periphyton responds differentially to nutrients recycled in dissolved or faecal pellet form by the snail grazer *Theodoxus fluviatilis*

Applied Issues

2009 *Brian Frappier and Robert T. Eckert:* A new index of habitat alteration and a comparison of approaches to predict stream habitat conditions

2021 *Dong-Kyun Kim, Kwang-Seuk Jeong, Peter A. Whigham and Gea-Jae Joo:* Winter diatom blooms in a regulated river in South Korea: explanations based on evolutionary computation

2042 *Cristina Trigal, Francisco García-Criado and Camino-Fernández Aláez:* Macroinvertebrate communities of mediterranean ponds (North Iberian Plateau): importance of natural and human-induced variability

2056 *Pamela M. Bennett and David M. Janz:* Seasonal changes in morphometric and biochemical endpoints in northern pike (*Esox lucius*), burbot (*Lota lota*) and slimy sculpin (*Cottus cognatus*)

Volume 52, Issue 11, November 2007

Original Articles

2073 *Benoît O. L. Demars and A. C. Edwards:* Tissue nutrient concentrations in freshwater aquatic macrophytes: high inter-taxon differences and low phenotypic response to nutrient supply

2087 *Jaya Naithani, Pierre-Denis Plisnier and Eric Deleersnijder:* A simple model of the eco-hydrodynamics of the epilimnion of Lake Tanganyika

2101 *Trevor J. C. Beebee:* Population structure and its implications for conservation of the great silver beetle *Hydrophilus piceus* in Britain

2112 *Lindsey L. Abbott and Elizabeth A. Bergey:* Why are there few algae on snail shells? The effects of grazing, nutrients and shell chemistry on the algae on shells of *Helisoma trivolvis*

2121 *Anurani D. Persaud, Robert E. Moeller, Craig E. Williamson and Carolyn W. Burns:* Photoprotective compounds in weakly and strongly pigmented copepods and co-occurring cladocerans

2134 *Sarah Dalesman, Simon D. Rundle and Peter A. Cotton:* Predator regime influences innate anti-predator behaviour in the freshwater gastropod *Lymnaea stagnalis*

2141 *Edward J. Phlips, John Hendrickson, Erin L. Quinlan and M. Cichra:* Meteorological influences on algal bloom potential in a nutrient-rich blackwater river

2156 *Benjamin D. Cook, Stuart E. Bunn and Jane M. Hughes:* A comparative analysis of population structuring and genetic diversity in sympatric lineages of freshwater shrimp (Atyidae: *Paratya*): concerted or independent responses to hydrographic factors?

2172 *Zlatko Petrin, Hjalmar Laudon and Björn Malmqvist:* Does freshwater macroinvertebrate diversity along a pH-gradient reflect adaptation to low pH?

2184 *Fabio Lepori and Björn Malmqvist:* Predictable changes in trophic community structure along a spatial disturbance gradient in streams

2196 *Ralph E. H. Smith, Christopher C. Parrish, David C. Depew and Anas Ghadouani:* Spatial patterns of seston concentration and biochemical composition between nearshore and offshore waters of a Great Lake

2211 *Amy M. Marcarelli and Wayne A. Wurtsbaugh:* Effects of upstream lakes and nutrient limitation on periphytic biomass and nitrogen fixation in oligotrophic, subalpine streams

2226 *Stephane Stenuite, Samuel Pirlot, Marie-Astrid Hardy, Hugo Sarmento, Anne-Laure Tarbe, Bruno Leporcq and Jean-Pierre Descy:* Phytoplankton production and growth rate in Lake Tanganyika: evidence of a decline in primary productivity in recent decades

Applied Issues

2240 *Maria Del Mar Sánchez-Montoya, Tura Puntí, Maria Luisa Suárez, Maria Del Rosario Vidal-Abarca, Maria Rieradevall, José Manuel Poquet, Carmen Zamora-Muñoz, Santiago Robles, Maruxa Álvarez, Javier Alba-Tercedor, Manuel Toro, Ana Maria Pujante, Antoni Munné and Narcís Prat:* Concordance between ecotypes and macroinvertebrate assemblages in Mediterranean streams

2256 *Marina Manca, Barbara Torretta, Patrizia Comoli, Susanne L. Amsinck and Erik Jeppesen:* Major changes in trophic dynamics in large, deep sub-alpine Lake Maggiore from 1940s to 2002: a high resolution comparative palaeo-neolimnological study

2270 *I. P. Vaughan, D. G. Noble and S. J. Ormerod:* Combining surveys of river habitats and river birds to appraise riverine hydromorphology

2285 *Thomas Mehner, Kerstin Holmgren, Torben L. Lauridsen, Erik Jeppesen and Markus Diekmann:* Lake depth and geographical position modify lake fish assemblages of the European 'Central Plains' ecoregion

2298 Book Review

Volume 52, Issue 12, December 2007

Original Articles

2299 *Juergen Geist and Karl Auerswald:* Physicochemical stream bed characteristics and recruitment of the freshwater pearl mussel (*Margaritifera margaritifera*)

2317 *Leah A. Bêche and Vincent H. Resh:* Short-term climatic trends affect the temporal variability of macroinvertebrates in California 'Mediterranean' streams

2340 *Kaj Sand-Jensen, Niels Lagergaard Pedersen and Morten Søndergaard:* Bacterial metabolism in small temperate streams under contemporary and future climates

2354 *Ian A. Wright and Shelley Burgin:* Species richness and distribution of eastern Australian lake chironomids and chaoborids

2369 *Chris Gibbins, Damià Vericat and Ramon J. Batalla:* When is stream invertebrate drift catastrophic? The role of hydraulics and sediment transport in initiating drift during flood events

2385 *S. R. Balcombe, S. E. Bunn, A. H. Arthington, J. H. Fawcett, F. J. McKenzie-Smith and A. Wright:* Fish larvae, growth and biomass relationships in an Australian arid zone river: links between floodplains and waterholes

2399 *Nathan J. Dorn and Joel C. Trexler:* Crayfish assemblage shifts in a large drought-prone wetland: the roles of hydrology and competition

2412 *Angela M. Pagano and John E. Titus:* Submersed macrophyte growth at low pH: carbon source influences response to dissolved inorganic carbon enrichment

Applied Issues

2421 *Steffen Hahn, Silke Bauer and Marcel Klaassen:* Estimating the contribution of carnivorous waterbirds to nutrient loading in freshwater habitats

2434 *Rebecca M. L. Harris, Patrick D. Armitage, Alexander M. Milner and Mark E. Ledger:* Replicability of physicochemistry and macroinvertebrate assemblages in stream mesocosms: implications for experimental research

2444 *Melissa E. Carew, Vincent Pettigrove, Renee L. Cox and Ary A. Hoffmann:* The response of Chironomidae to sediment pollution and other environmental characteristics in urban wetlands

2463 *Matthew T. O'Hare, Richard A. Stillman, Jo McDonnell and Laura R. Wood:* Effects of mute swan grazing on a keystone macrophyte

2476 *Nobuhito Ohte, Randy A. Dahlgren, Steven R. Silva, Carol Kendall, Charles R. Kratzer and Daniel H. Doctor:* Sources and transport of algae and nutrients in a Californian river in a semi-arid climate

2494 *Scott W. Miller, David Wooster and Judith Li:* Resistance and resilience of macroinvertebrates to irrigation water withdrawals
